

Warner Shelter Systems Ltd.

“Award-winning engineering and design since 1971.”

Proudly Celebrating 50 Years! 1971-2021

Warner Shelter Systems Ltd. (WSSL) has designed, engineered and manufactured quality award-winning tents, tensioned fabric structures and semi-permanent structures since 1971. The company's mission is to provide customers with technically superior, attractive, portable and easy-to-use tents and fabric-clad structures that have interchangeable parts to reduce inventory space and innovative design to minimize labor.

WSSL has won many international awards for excellence in engineering and design. It offers quality fabric-clad structures from 100 to 100,000 square feet, suitable for every purpose and every season of the year, from special events, trade shows, fairs, catering and outdoor concerts to warehousing, retail and industrial use.

PRODUCTS: Armadillo, Dome stagecovers and theatres, Hypup/Cititents, Arabesque, saddle-shaped stagecovers, Centipedes, Peak Marquee Tents, Peak Pole Tents, WSSL Garage, Giga-Span Structures, Tent-X-Span, Tent-C-Can, and WSSL ClearMod series.
