

## L.B. White Company

### *Portable heat for every event*

Portable heaters from L.B. White are designed to meet the unique requirements of tent environments and temporary event spaces. From taking the chill out of evening air to delivering 100 percent clean, dry heat in temporary spaces—there's an L.B. White heater for the job.

From headquarters in Wisconsin, the company offers more than 65 years of leadership in heat engineering and manufacturing. L.B. White designed the original tent or box style Premier® heater that has provided unmatched reliability to the event industry for many years. In 2018 and 2019 the company earned the *InTents* Reader's Choice Award for best heat supplier.

Safety and quality practices, like test firing every heater before it ships, have set L.B. White products apart since 1952. Heaters are backed by an industry-leading two-year manufacturer's warranty. A Wisconsin-based Tech Support team with over 15 years of field and engineering experience serves as a year-round resource to customers too.

Quickly estimate how many portable heaters are needed for your event space based on cubic feet and heat rise goals at [LBWhite.com/HeatEstimator](http://LBWhite.com/HeatEstimator). Call 800-345-7200 to learn more about what heater style will fit your event needs.
