

Liri Tent US

Engineered tent solutions with great versatility

Liri Tent US is proud to deliver engineered tent solutions to customers throughout the United States. We offer the same trend-setting designs that Liri Tent Technology is known for worldwide.

With Liri Tent US you will receive unmatched quality, customer service and immediate access to the latest products at an incredible value. Boasting the largest tent production base around the world, Liri's product lineup offers the versatility to meet all of your needs. We feature a wide range of span widths, from 3m (10 feet) to 80m (260 feet) with multiple roof designs and shapes including A-frame, High-peak, Arcum, Dome, Curved and Polygon.

As a pioneer in the industry, Liri Tent keeps current with industry trends and technology. Offering U.S.-based inventory sales and service, Liri Tent's U.S. operations are headquartered in Kansas City, Kan.

PRODUCTS: Small Beam Clearspan (10 to 40 feet); Medium Beam Clearspan (33 to 82 feet); Large Beam Clearspan (66 to 260 feet); Multi-Sided Tents; Double Deckers; Arcum, Dome, Curve, Polygon and High-peak roof designs; and a full range of accessories.

Olympic Tent

30% labor savings, amazing customer service and quick turnaround

For over 80 years, we have driven design innovation for tents, advanced the structural quality and defined excellent service standards. Olympic Tents add profits and reduce operating costs for rental stores by reducing the number of parts and saving up to 30 percent on labor. The system is the fastest installing frame tent on the market, saving time spent installing and training. Every purchase comes with Olympic Tent's trademark customer service. We are fanatical about supporting your business with on-time delivery and superior technical support.

Remarkably durable and easy to maintain, Olympic Tents combine superior vinyl fabric with the strongest frame system in numerous configurations, backed with engineering certification to meet or exceed code requirements in most locations. This year we are introducing our exclusive European structure, Protan Elmark, which is engineered for high winds and snow loads. The attractive cost provides the best ROI on the market.

PRODUCTS: Slide-in 5 foot to 50 foot wide, European structure 5m to 40m, sidewall upgrades (glass, insulated), entry doors, glass windows, sliding doors, garage doors, custom sizes, High Peaks, accessories.
