

12 By Event Flooring

Top notch customer service with personal attention

With over 90 combined years of experience in tenting, flooring and staging for the special events industry, 12By Event Flooring was founded in 2015 by Billy McKee, Tim Manning, and Shawn K. McKee. Our company prides itself on our top notch customer service as our team of salespersons give personal attention to each and every client, teaming with them in order to ensure success.

Whether it's covering entire convention centers or high end weddings, we have the connections needed to make sure that your event goes smoothly, with the right product to match. Our team of delivery and installation professionals are the best in the business at making certain that your products can arrive on time and be installed to a high standard as needed.

At the forefront of innovation in the industry, we are launching a new line of products in 2025, "Renew" a 100% recyclable event-priced carpet and turf. This new line will help avoid additional costs in waste removal and meet the growing demand for environmentally conscious standards for your events.
