

Liri Tent Modular Structure

Engineered tent solutions built for versatility

Liri Modular Structure delivers professional-grade, engineered tent solutions. With Liri, you gain access to a complete portfolio of modular structure systems designed for flexibility, durability and long-term use. Our product lineup supports a wide range of applications, offering clearspan options from 10 to 260 feet to meet both temporary and semi-permanent needs.

Available structures include high-peak, A-frame, curved, dome, polygon, double-decker, and orangery/atrium designs, along with elevated flooring systems, low-level flooring and a full range of accessories.

Whether you are expanding rental inventory or sourcing structures for commercial or industrial use, Liri provides solutions that scale with demand.

Liri Modular Structure stays at the forefront of design, engineering and manufacturing. With U.S.-based inventory, responsive service, and headquarters in Kansas City, Liri Tent US supports projects nationwide with reliability and speed.
